WORK EXPERİENCE

Frontend Developer

Since January 2021 **AFEX Commodities Exchange** Abuja, Federal Capital Territory, Nigeria

- Mainly worked on maintaining the original version of the company's trading platform.
- Collaborated with another Frontend developer to work on existing/modified APIs in building a new version of the company's web trading platform.
- Developed a robust loan module for the platform.
- Implemented UI designs and backend APIs to build a highly performant in-house admin platform.

Frontend Developer

From August 2022 to November 2022 **Helpa** Remote

- Worked as the sole Frontend developer to build, test and stabilize an online healthcare fundraising platform.
- Implemented existing Figma designs and backend APIs to build an admin side to the user side platform.

Integration and Test Engineer

March 2022 **Klasha** Remote

- Worked with the provided documents, designs and API keys to develop, test, and document a checkout page.
